

Aries Day at K9 Playtime

Aries suddenly developed a severe, potential life threatening, infection that took over his entire hind leg. Aries was treated at Grayslake Animal Emergency and Treatment Center. He was released after 6 days of treatment, however we still need to raise money to cover the cost of his treatment. Please help us raise money to help cover the medical expenses for Aires and several other PP dogs requiring specialized care this year.

K-9 Playtime will be hosting a very special event to help Placing Paws raise money to cover Aries medical costs.
